GLOBAL BUSINESS
CORPORATION

About us

As a dynamically developing company with an international footprint, the GBC's core activity is distributing high-tech Generic and Biosimilars drugs to national and international partners in the healthcare sector.

For decades, GBC has created the largest portfolio of biosimilar medicines that come at affordable prices. We have focused on developing the most complex medicines that address the world's largest health problems from neurology to oncology, from haematology to gynaecology, from endocrinology to rheumatology.

We take pride in serving our customers, in building long-lasting partnership and contributing to their success in the export of EU medicinal products, trade with pharmaceuticals and medical devices, as well as contract manufacturing services for third parties.

- We stay open to new business opportunities

Our Philosophy

GLOBAL BUSINESS
CORPORATION

What we do

Supplying high-tech Oncological finished molecules, including mAbs

We are driven by the desire to change lives by making quality treatments more accessible and more affordable to all.

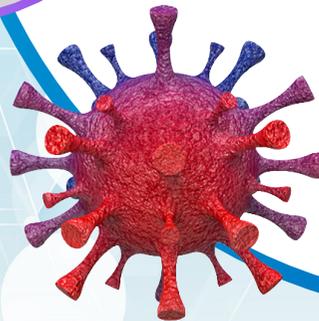

GLOBAL BUSINESS
CORPORATION

What we do

Improving disease management

During the recent pandemic of COVID19, GBC, thanks to be partnered with best suppliers with EU-Approval GMPs, managed to supply most-demanded drugs which helped patients manage their conditions, without placing any additional burden on healthcare providers.

GLOBAL BUSINESS
CORPORATION

Other high-demanded drugs:
(PEGFILGRASTIM, ENOXAPARIN, CASPOFUNGIN,
FACTOR VIIA, Edaravone, Beractant)

GLOBAL BUSINESS
CORPORATION

Vision

GBC believes that people all around the world have this absolute right for utilizing high-grade products of all kind particularly food and medicine. As a matter of fact, we eagerly would like to become the leading pharmaceutical distributor in all treatment segments.

Mission

We truly believe in our values of Integrity, Innovation, Quality, Sustainability, and Hope. These values motivate us to develop and supply medicines that are changing lives by making quality treatments more accessible and more affordable to all people.
